On-screen Error toast to pop up and inform admin 'Failed to add product. Please ensure the form is valid.'	Incorrectly filled in form and clicked 'Add Product' button to check what happened	Acted as expected	Yes	N/A	Yes	No	Yes	Pass

#### Shopping Bag (/bag/) page testing

What to test	What to expect	What was done to test	What happened	Works on mobile	What was done to resolve	Visible When Logged In	Visible When Not Logged In	Visible to Admin ONLY	Pass or Fail
If page title is displayed at very top of page	Page title to be displayed at very top of page	Viewed page to check	Acted as expected	Yes	N/A	Yes	Yes	No	Pass
If 'Your bag is empty' and 'Continue Shopping' button present on page when no products in shopping bag	Text and button to appear on screen if bag empty	Checked page when no products were in bag	Acted as expected	Yes	N/A	Yes	Yes	No	Pass
'Continue Shopping' button click	Direct user to all products (/products/) page after click	Clicked the button and recorded results	Acted as expected	Yes	N/A	Yes	Yes	No	Pass
Product Name, SKU, Price, Quantity (and quantity selector), Subtotal, Bag Total, Delivery, Grand Total and Free Delivery message to all appear on screen if items in bag	All correct info to be displayed on page	Checked to see if all information was present on page load	Acted as expected	Yes	N/A	Yes	Yes	No	Pass
Free Delivery message to be hidden if user has activated the free delivery promotion	No message regarding free delivery promotion displayed under the Grand Total info	Checked to see if message visible when free delivery promotion amount has reached	Acted as expected	Yes	N/A	Yes	Yes	No	Pass
All cost/price related info to be	All information to be correct and costs to	Checked to see if information was correct.	Acted as	Yes	N/A	Yes	Yes	No	Pass

correct and to be automatically updated whenever any changes are made to the shopping bag products/quantity	be updated correctly upon any change made to the shopping bag and products	Adjusted bag content, added/removed products and recorded results	expected						
Product image present and displaying correctly	Image to show correctly with acceptable scale responding to screen size	Checked to see if image was correctly displaying and for numerous screen sizes	Acted as expected	Yes	N/A	Yes	Yes	No	Pass
'Update' link for quantity selector visible	'Update' clickable link to be present on page	Checked on page load	Acted as expected	Yes	N/A	Yes	Yes	No	Pass
'Update' link for quantity selector working on click	'Update' clickable link to update the number of products in the bag to that shown in the quantity selector, for all relevant information to be updated after click and a Success! Toast to inform user of this	Clicked 'Update' link and recorded results	Acted as expected	Yes	N/A	Yes	Yes	No	Pass
'Remove' link for quantity selector visible	'Remove' clickable link to be present on page	Checked on page load	Acted as expected	Yes	N/A	Yes	Yes	No	Pass
'Remove' link for quantity selector working on click	'Remove' clickable link to remove the linked product(s) in the bag, for all relevant information to be updated after click and a Success! Toast to inform user of this removal	Clicked 'Remove' link on each linked product next to the quantity selector and recorded results	Acted as expected	Yes	N/A	Yes	Yes	No	Pass
If 'Keep Shopping' button is present	'Keep Shopping' button present	Checked to see if button present	Acted as expected	Yes	N/A	Yes	Yes	No	Pass
'Keep Shopping' button click	Direct user to main products (/products/) page	Clicked 'Keep Shopping' button to check	Acted as expected	Yes	N/A	Yes	Yes	No	Pass
If 'Secure Checkout' button is present	'Secure Checkout' button present	Checked to see if button present	Acted as expected	Yes	N/A	Yes	Yes	No	Pass
'Secure Checkout' button click	Direct user to checkout (/checkout/) page on click	Clicked 'Secure Checkout' button to check	Acted as expected	Yes	N/A	Yes	Yes	No	Pass

#### Checkout (/checkout/) page testing

What to test	What to expect	What was done to test	What happened	Works on mobile	What was done to resolve	Visible When Logged In	Visible When Not Logged In	Visible to Admin ONLY	Pass or Fail
If page title is displayed at very top of page	Page title to be displayed at very top of page	Viewed page to check	Acted as expected	Yes	N/A	Yes	Yes	No	Pass
If the user Details Form is present	The user Details form to be present	Checked to see if form present on page load	Acted as expected	Yes	N/A	Yes	Yes	No	Pass

If the user Delivery form is present	The Delivery form to be present	Checked to see if form present on page load	Acted expected	as	Yes	N/A	Yes	Yes	No	Pass
If Delivery form show inputs for 'Phone Number', 'Street Address 1', 'Street Address 2', 'Town or City', 'County, State or Locality', 'Postal Code', 'Country' (dropdown) and their respective placeholders, unless user already has data attached to these inputs	All necessary inputs present in form	Checked on page load	Acted expected	as	Yes	N/A	Yes	Yes	No	Pass
If the 'Country' dropdown loads and works correctly and displays a list of selectable options	The 'Country' dropdown to be present, to work and display the correct information	Tested dropdown after page load by selecting different options each time	Acted expected	as	Yes	N/A	Yes	Yes	No	Pass
Delivery form populated if user has chosen to save or previously given their personal information and that information is correct	Form fields to be populated with correct user data if user has previously given that information	Checked to see if form filled with correct user information, knowing that the user has previously provided their information	Acted expected	as	Yes	N/A	Yes	No	No	Pass
'Save this delivery information to my profile' message and checkbox present on page, only if user is signed in	Message and linked checkbox present on page	Checked on page load	Acted expected	as	Yes	N/A	Yes	No	No	Pass
'Save this delivery information to my profile' message and checkbox feature test on click	User info to be saved once order is complete, and in the future to pre-populate the forms on My Profile and Checkout pages	Checked/Ticked checkbox and recorded results after finalizing order and returning to create a new order	Acted expected	as	Yes	N/A	Yes	No	No	Pass
Create an account or sign in to save this information message to appear on form, if user not signed in	Message present on page when user not signed in to an account	Made sure user not signed in, and checked Checkout page	Acted expected	as	Yes	N/A	No	Yes	No	Pass
'Create an account' text link click, found within the form message	Direct visitor to Sign Up (/accounts/signup/) page on click	Clicked the text link	Acted expected	as	Yes	N/A	No	Yes	No	Pass
'Sign In' text link click, found within the form message	Direct visitor to Sign In (/accounts/login/) page on click	Clicked the text link	Acted expected	as	Yes	N/A	No	Yes	No	Pass
Payment input to appear on form	Payment input to appear on form	Checked to see on page load	Acted expected	as	Yes	N/A	Yes	Yes	No	Pass
Stripe handles all payment correctly	Stripe to handle card payment validation	Tested stripe and checked Stripe website too	Acted expected	as	Yes	N/A	Yes	Yes	No	Pass
Attempt to submit form by clicking 'Complete Order' button with all but the Payment input filled	No advancement, no order completion. 'Your card number is incomplete' message to appear underneath the Payment input	Filled in form correctly other than the payment input, leaving that blank. Clicked 'Complete Order' and recorded result	Acted expected	as	Yes	N/A	Yes	Yes	No	Pass
'Your card number is invalid' red text message to appear under	Message to appear underneath Payment input for invalid card number input	Entered invalid card number and checked	Acted expected	as	Yes	N/A	Yes	Yes	No	Pass

Payment input if invalid card number is entered in Payment input on form									
Form validation	Shopper informed of either validation error at certain input fields, or red text appearing under inputs to inform them of expected, valid inputs	Tested valid and invalid inputs on form	Acted as expected	Yes	N/A	Yes	Yes	No	Pass
If Order Summary table present, with correct number of items displayed next to it	Order Summary table present, with correct number of items displayed next to it	Checked to see on page load	Acted as expected	Yes	N/A	Yes	Yes	No	Pass
If the correct product image, name, quantity and subtotal is listed in the table	Correct product image, name, quantity, subtotal listed in table	Checked to see on page load	Acted as expected	Yes	N/A	Yes	Yes	No	Pass
If 'Order Total', 'Delivery' charge and 'Grand Total' all present and calculated correctly	Order total, delivery charge and grand total all present and calculated correctly	Checked to see on page load	Acted as expected	Yes	N/A	Yes	Yes	No	Pass
If 'Adjust Bag' button is present	'Adjust Bag' button present	Checked to see if button present	Acted as expected	Yes	N/A	Yes	Yes	No	Pass
'Adjust Bag' button click	Direct user back to the shopping bag(/bag/) page	Clicked 'Adjust Bag' button to check	Acted as expected	Yes	N/A	Yes	Yes	No	Pass
If 'Complete Order' button is present	'Secure Checkout' button present	Checked to see if button present	Acted as expected	Yes	N/A	Yes	Yes	No	Pass
'Complete Order' button click, with forms filled and valid Payment details	Loading screen to appear, followed by 3D Secure Test Payment pop-up	Clicked 'Complete Order' button to check	Acted as expected	Yes	N/A	Yes	Yes	No	Pass
3D Secure Test Payment Page appears for further authentication on checkout processing - shows correct grand total cost	Pop-up to appear showing correct Grand Total cost and options to advance	Checked if 3D Payment page loaded correctly and displayed all info and buttons correctly	Acted as expected	Yes	N/A	Yes	Yes	No	Pass
3D Secure Test Payment Page appears for further authentication on checkout processing - 'Complete Authentication' button clicked	Direct user to checkout success (checkout/checkout_success/order_number) page after click	Clicked button and checked results	Acted as expected	Yes	N/A	Yes	Yes	No	Pass
3D Secure Test Payment Page appears for further authentication on checkout processing - 'Fail Authentication' button clicked	Return user to Checkout page with 'We are unable to authenticate your payment method. Please choose a different payment method and try again' text message in red to appearing under Payment input	Clicked 'Fail Authentication' button and recorded result	Acted as expected	Yes	N/A	Yes	Yes	No	Pass
3D Secure Test Payment Page appears for further authentication	Pop-up to disappear and return user to Checkout page	Clicked Cancel button	Acted as expected	Yes	N/A	Yes	Yes	No	Pass

on checkout processing - 'Cancel' button clicked (on top right of pop-up)									
Text message in red displaying underneath buttons at bottom of screen, informing customer that their card will be charged the Grand Total.	Message to appear on page load	Checked on page load	Acted as expected	Yes	N/A	Yes	Yes	No	Pass

Checkout Success (/checkout/checkout\_success/order\_number) page testing

What to test	What to expect	What was done to test	What happened	Works on mobile	What was done to resolve	Visible When Logged In	Visible When Not Logged In	Visible to Admin ONLY	Pass or Fail
Success! Order success Toast with order number and email confirming order appears at top of page	Toast to appear on page load, with the correct email and an order number showing	Checked on page load							
If page title is displayed at very top of page	Page title to be displayed at very top of page	Viewed page to check	Acted as expected	Yes	N/A	Yes	Yes	No	Pass
